UNITED STATES MEDICAL CORPS

July 7, 1944

Dear Mom,

Well the other outfit I was telling you about has moved in and taken over. The enlisted men seem to be a pretty good bunch of boys.

I still have the toughest ward in the whole place and the hardest shift to work. I know now I'll never be a doctor. I'll just have to shift over to pharmacy when I go back to college.

There isn't much to write about at present except that we found a 7 foot cobra under a bed in one of the wards. Guess he got under there to keep out of the rain.

Had better sign off now. am sending some clippings from one of our papers.

your loving son,
Jimmy
