

Feb. 26<sup>th</sup>, Monday

Dear Mom,

Well everything is still about the same here. A few of us in the room may start to school again - the Armed Forces Institute may start courses and if we take them and pass them we get college credit for it. If I do take them it will be physics and inorganic chem. - of course I already have credit for chem but I'd like a refresher in it.

I haven't received your picture yet or the underwear, etc. Some of your letters have been coming in ten day - very good time.

Our ball team is coming right along - having quite a bit of fun. They are in sore but it'll be o.k. after a little practice.

(2)

My luck must have run out because  
I lost \$35 last night. Don't worry tho  
I put \$200 in Soldier's fund and have  
\$150 in cash on me.

Will not much to write to-night so  
I'd better sign off. I'm o.k. and feeling  
fine.

your loving son,  
Jimmie
