

Thursday 5 April

Dear Mary,

Well not much new around here - you know the nurse in the pictures I sent you, she's going home. She's been over here 26 months but I'm still sorry to see her go. She's probably the sweetest person I've ever known, outside of you. She's going to write you when she gets home, so you'll know who she is when you get the letter.

Oh - I have a new job now. I am in charge of fly and malaria control for the hosp. area. It's only temporary, until the fly season is over - then I'll go back in the lab.

Say remember now don't feel bad if I don't pass the board, I don't know why I'm even trying. I'll probably go up before it in the next couple of days.

(2)

Our new lab. is almost finished
it will really be swell to have
plenty of room to work in, the way
it is now we are stepping on top of
each other half the time.

Well guess thats about all for
tonight, am o. k. and my arm
is just about well.

your loving son,
Jimmy

P.S.

Just because I passed the board
dont expect me home right away -
it may take a long time for a
quota to be assigned to this
theater.
