

Tuesday, 10th April

Dear Myan.

Air mail has certainly been coming fast lately, got fifteen letters in two days. Five of them were from you - your air mail beat the V-mail here.

Don't worry about the money the store has made - if it just makes enough to send me thru three years of college it will be o.k. I'm pretty sure now that I'll study Pharmacy or chemistry.

About getting home, I'm not going to put in for a furlough now unless I go to O.C.S. I won't be home for another year at least.

Didn't do much today, just put out poison for rats and set traps - I told you I was working in the Sanitation Dept. now - have to start malaria control soon so guess I'll go in and get my supplies tomorrow.

I certainly was sorry to hear about Jimmy Taylor's death, I didn't even know he was an old friend. I guess things will really be different when we come home, that's the reason I want to get back to College as soon as I get home.

Well guess I'll knock off now. Good show to-night that I want to see - am O.K. and feeling fine.

your loving son,

Jimmy
